

Name: _____

Period: _____

Lab Assignment: Chapter 6 – Employment

Salary/Paychecks/Benefits/etc.

Please answer the following questions. Be thoughtful and thorough after doing the **appropriate amount of internet research**.

1) What career or job do you want to pursue in the **near future**?

What is the average annual salary for that type of work?

What is the bi-weekly gross pay for that annual salary?

2) If you make \$32,500 per year, what would be your bi-weekly gross pay?

3) Complete the table using internet research. Assume the average American worker.

	National average wage index for 2017	Poverty Level	Your projected income
Annual Salary			
Bi-Weekly paycheck			
Typical deductions – Fica, State and Federal withholding, etc. (do research)			
Net Paycheck			

4) Discuss where you see yourself in ten years. Include type of career, annual salary and bi-weekly paycheck, and what benefits you expect to get.
