

## Homework - Predicting the future!

---

- A. Find the equation of the line that represents a linear progression of the stock price.
- B. Predict each stock's price in 15 and 20 years.  $X=15$   $X=20$
- 

1) Stock: INTC (Intel Corp)

Price on 9/1/2009: \$20.22

Price on 9/1/2013: \$22.92

2) Stock: MCD (McDonald's)

Price on 9/1/2009: \$62.39

Price on 9/1/2014: \$93.24
